

## DATA SHEET

### ES 419 SERIES 19" PREMIUM FLOOR STANDING Rack Cabinet

A range of high-quality real wood veneered floor standing rack cabinets, designed where visual appearance is important. Applications include Board Rooms, offices, recording studios and Reception areas and are ideally suited for the home install market.

Available as standard in two rack heights (12U and 18U), two depth combinations (600mm and 800mm) and come ready-assembled to reduce installation time.

The racks are constructed in veneered 19mm particle board and are finished with a pre-catalyst lacquer. Standard features include fully adjustable rack profiles to the front and rear, solid lockable front door on quick-release hinges, solid lockable rear door with ventilation slots and quick-release hinges, cable management access to the base at the rear of the cabinet and medium duty castors.

Product Code	'U' Height	Colour	Width (mm)	Depth (mm)
